

Prof Ken Smith - Cambridge **Celebration Event**

2:00-6:30pm, April 18th 2024

**Venue: Pembroke Auditorium, United
Reformed Church, Trumpington St.**

Session 1:

- 14:00 - Chair/opening remarks: Prof Sir Keith Peters “Ken’s scientific legacy”**
- 14:15 - Eoin McKinney (*CITIID*) “Epiphany, apophany and the progression of immune disease”**
- 14:40 - Arianne Richard (*Babraham Institute*) “Tuning the T cell response through individual and collective cell behaviours”**
- 15:05 - James Lee (*Francis Crick Institute, London*) “A disease-associated gene desert directs macrophage inflammation via ETS2.”**
- 15:30 - Refreshments**

Session 2: Chair and closing remarks: Prof Paul Lehner

- 15:55 - James Peters (*Imperial College, London*) “Using genetics of circulating inflammatory proteins to understand immune-mediated disease aetiology”**
- 16:20 - James Thaventhiran (*MRC Toxicology Unit*). “Broadening the impact of single gene/single-patient studies of inherited immune disease.”**
- 16:45 - Dave Thomas (*CITIID*) “Reactive Oxygen Species: My Part in Their Downfall”**
- 17:10 - Menna Clatworthy (*CITIID*) “Tales of tissue immunity”**
- 17:35 - Closing remarks and response (Ken Smith)**

- 17:45-18:30 - Drinks (all welcome)**
